

Empowering Global Wellbeing Through Innovation.

NINE VERTICALS · ONE GLOBAL PLATFORM

WHO WE ARE

Digital Health International Inc. (DHI) is a global digital healthcare and infrastructure innovation platform — integrating technology, security, and care delivery to enhance outcomes, streamline operations, and improve access across public and private sectors.

Headquartered: Research Triangle Park, NC

Global Reach: North America, Asia, India, South America & more

Target Markets: governments, hospitals, employers, payers, NGOs, and distributors

9

Integrated verticals

24/7

Managed operations

**SAM.g

Global

Sourcing & outreach

MISSION

To provide cutting-edge, scalable solutions that improve access, affordability, and outcomes worldwide.

VISION

To be the most trusted, vertically integrated health and infrastructure innovation company for 21st-century care.

ONE PLATFORM, EVERY CAPABILITY

Nine Verticals. One Platform.

From hospital bedsides to data centers, from government command rooms to employer wellness programs — DHI unifies healthcare, energy, and enterprise into a single integrated ecosystem. Each vertical runs independently or as part of a comprehensive solution.

Modular by design

Open APIs connect hospitals, payers, employers & government systems

Secure to the core

HIPAA, GDPR & cybersecurity built into every layer

Data-driven

Agentic AI decision support & analytics across the ecosystem

Globally sourced

Field-tested operations & world-class provider partnerships

BUSINESS MODEL

- ✓ B2B, B2G, and B2C channels
- ✓ Subscription platforms & digital marketplaces
- ✓ AI-powered government bid automation
- ✓ Service contracts & licensing
- ✓ Revenue sharing & strategic partnerships
- ✓ 24/7 managed operations & compliance-based delivery

How engagement works

- 01 Select** Choose the verticals & outcomes that fit
- 02 Design** DHI assembles partners, pricing & roadmap
- 03 Deliver** Contracting, deployment & performance reporting

**NINE VERTICALS WE DELIVER —
INTERNALLY AND THROUGH VETTED
PARTNERS**

1

AI Infrastructure & Data Centers

On-prem & sovereign AI infrastructure — build, power, secure, and operate GPU / data-center environments. Delivered with construction partner T2 Contracting under the AICORE platform.

Core Capabilities:

- Sovereign AI Pod — dedicated, air-gappable, client-owned GPU environments
- Build, power & liquid cooling + 24/7 managed operations (NOC)
- Agentic AI ops, cybersecurity & lifecycle support (AICORE)

Government Relevance:

- NAICS: 541512, 236220, 517911
- RMF / ATO-ready (NIST 800-53), CMMC-aligned; SAM.gov registered

*For DoD installations (sovereignty, air-gap) and hospitals (HIPAA data control).
Specifications are design targets; accreditation is achieved per deployment.*

1

INFRASTRUCTURE

2

Decentralized Software & Telehealth

Interoperable digital platforms for patient data, provider systems, care coordination, and telehealth.

Core Features:

- Blockchain-ready EHR & care management
- Real-time provider portals & telehealth integration (GenieMD)
- HIPAA, GDPR & NIST 800-53 compliance

Government Relevance:

- NAICS: 541511, 541512
- GSA Health IT & Digital Transformation; VA & federal health networks

Modular health-data systems for ministries of health and public programs.

2

HEALTHCARE IT

3

Secure Communications & Cybersecurity

Cybersecure communications infrastructure for healthcare, public safety, and emergency-response agencies.

Core Features:

- Encrypted telehealth, messaging & file transfer
- FISMA, FedRAMP & DoD IL5-aligned systems
- Multi-factor & biometric access

Government Relevance:

- NAICS: 541519, 517911
- DHS, DoD & FEMA use cases; FEMA emergency-comms framework

Emergency-response tools for field and public-safety deployments.

3

SECURITY

4

Lighting & Energy Efficiency

A distributor-grade LED lighting & energy platform — search, spec, design, quote, and order across seven brands, with AI and government bid automation.

Core Platform:

- 141 real models across 7 brands (Keystone + Acuity, Signify, Cree, Eaton, Orion, Alcon)
- AI Lighting Advisor + Layout & Zonal calculators (3D, foot-candle / photometric)
- Bid Builder (solicitation → matched SKUs) + EDI 850 PO export

Government Relevance:

- NAICS: 335110, 423610, 541690
- GSA & SAM.gov lighting/energy solicitations; Buy American / TAA aware

Built for distributors & ESCOs — automate large solicitation packages on a subscription model.

4

ENERGY

VERTICAL SPOTLIGHT

Lighting & Energy — the platform, in depth

A distributor-grade platform that takes a lighting job from question to priced, code-ready order — with AI and government bid automation.

Multi-brand catalog

141 real models across 7 brands (Keystone + Acuity, Signify, Cree, Eaton, Orion, Alcon) — 98% with real product photos.

AI Lighting Advisor

Describe a space in plain English → the right fixtures and exact quantities, then build a quote.

Layout & Zonal calculators

Foot-candle design, coefficient of utilization, and an interactive, dimensioned 3D room you can orbit.

Bid Builder + EDI export

Paste a solicitation → matched catalog SKUs with pricing, then export an EDI 850 purchase order.

The opportunity: distributors run large teams to process government bids by hand — our AI turns a solicitation into a priced package in minutes, sold as a scalable subscription.

5

Automotive — AutoCommand

A digital automotive commerce & lending platform connecting buyers, dealers, and lenders under the AutoCommand brand.

Core Features:

- AI vehicle matching & marketplace
- Dealer & lender tools with financing workflows
- SCRA-aware lending support

Government & Enterprise:

- Fleet & public-sector vehicle procurement
- Bank & credit-union lending partners

Launching 2026 with pilot outreach to banks and credit unions.

5

MOBILITY

6 Insurance & Risk Solutions

Group medical and supplemental insurance for employers and institutions, delivered through licensed, appointed partners.

Core Services:

- Group major medical — ITH SmartCare (employers, 2+ employees)
- Supplemental: dental, vision, life, travel, malpractice
- Agent white-label platform, lead routing & commissions

Government Relevance:

- NAICS: 524210
- State worker-benefit programs; foreign-national & embassy coverage

Licensed-advisor follow-up; carrier-appointed via ITH / InsurTech Hub.

6

INSURANCE

7

Medical Supplies & Procurement

A buy-side procurement platform and consumables supply for hospitals and public entities, delivered under SupplyScope.

Core Platform:

- Procurement storefront + product finder + price benchmarking
- Consumables, PPE, linens & textiles, custom-branded supplements
- Antitrust & data-firewall guardrails built in

Government Relevance:

- NAICS: 423450, 446191, 812332
- GSA PPE & supplies; public hospital & correctional supply

Sentara benchmark pilot; tiered SaaS model.

SUPPLY CHAIN

8

Medical Equipment Distribution

Licensed distribution of diagnostic and durable medical equipment (DME) for hospitals, state facilities, and correctional health.

Core Products:

- Diagnostic kits, ultrasound, ECG, portable labs, diabetic products
- Oxygen therapy & remote vital systems

Government Relevance:

- NAICS: 423450, 339112
- Buy American Act; DLA & VA direct-supply eligibility

Global health hubs equipped via facility grants.

8

DISTRIBUTION

9

Wellness Programs & Clinics

Corporate wellness, modular clinics, and health programs for employers and communities.

Core Features:

- On-site, mobile & modular clinic deployment
- Corporate wellness plans & cognitive/performance programs
- Lab kits, injectables & emergency field supplies

Government Relevance:

- NAICS: 621498, 621999
- CMS innovation grants; SAM.gov mobile-clinic pilots

Community clinics launched with government subsidies and grant support.

9

COMMUNITY HEALTH

WHAT WE DO

We create digital solutions that bring healthcare, energy, and enterprise capability closer to people across the world.

- **Telemedicine & remote consultations**
- **AI-driven monitoring & decision support**
- **Mobile health (mHealth) platforms**
- **Virtual care systems for providers**
- **Distributor & procurement platforms**
- **Government bid automation**

AI decision support, everywhere — agentic AI & analytics run across the ecosystem, from vehicle matching to clinical insight to risk scoring.

OUR APPROACH

We believe in the power of technology with a human touch.

People First

Designed for ease, empathy & access

Data-Driven

Built on AI & secure digital platforms

Locally Adapted

Tailored to each region's needs

Globally Connected

Operating across continents with impact

*From challenges to change —
we lead the future forward,
combining global experience
with local expertise.*

WHO WE HELP

Our solutions empower:

Patients

More access, faster care

Providers

Smarter tools, improved efficiency

Employers

Healthier teams, lower cost

Governments & NGOs

Scalable solutions for public health

Whether you're in a city or a rural village — we bring solutions to you.

OUR IMPACT

Empowering global wellbeing through innovation.

10+

Countries served

1M+

compliance

OUR TECHNOLOGY

Our platforms combine the latest in health-tech and infrastructure innovation:

- ✓ **AI Health Assistants & Agentic AI**
- ✓ **Mobile Health Apps**
- ✓ **Secure Cloud Infrastructure**
- ✓ **Open APIs & Analytics Dashboards**
- ✓ **Multilingual, Offline-Capable Solutions**

Secure, compliant & interoperable — to the core.

HIPAA · GDPR · SAM.gov · FEMA · GSA pathways

OUR VALUES

Compassion: People over systems

Inclusion: Health for all, no exceptions

Innovation: Smart, scalable solutions

Integrity: Transparent, ethical practices

Impact: Measurable change where it matters most

COLLABORATIONS & PARTNERS

We work with:

- **Ministries of Health**
- **NGOs & humanitarian agencies**
- **Technology innovators**
- **Global health networks**

Powered by globally recognized partners
